

Why Choose Us

Industry Leading Physicians

The nationally and internationally renowned physicians at Ankle & Foot Centers of Georgia have earned their reputations as leaders in the field of podiatry by teaching and lecturing on innovative techniques and continually staying abreast of technological advancements.

Compassionate Care

By empowering patients to make decisions and act as partners in their own treatment, our staff of experienced physicians are constantly exploring and developing creative innovations to expand proven procedures, patient care protocols, surgical techniques and instrumentation.

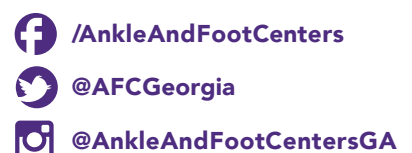

Modern Technology, Equipment & Facilities

To ensure superior patient care, comfort and privacy, we have constantly re-invested in our infrastructure in order to provide some of the most advanced podiatric services and facilities in the nation. All Ankle & Foot Centers of Georgia offices showcase the most innovative technology available while remaining comfortable and welcoming to patients and their families.

Accessibility

We accommodate our patient's busy schedules by providing numerous convenient Metro-Atlanta locations with over 20 extraordinary podiatrists available for their needs. The convenience of effortless scheduling via online or by contacting one of our locations for friendly service is also available.

Our Ancillaries

MRI Centers of Georgia is an all inclusive destination to treating all of a patients foot and ankle needs. Having the MRI Centers of Georgia located in four of our Ankle and Foot Center clinics across metro-Atlanta allows us to better serve and treat each patient and makes us a one-stop shop for treating any ailment that comes through our doors.

At the MRI Centers of Georgia we are proud to use Esaote O-scan MRI machines in each of our clinics. These advanced and state-of-the-art machines offer a complete range of high quality imaging capabilities for extremities while providing patients with an optimal, comfortable experience thanks to the unique design each machine offers.

We have found this machine to be the ideal response to patient comfort, efficient exam times, and proficient work flows within our MRI clinics. At the MRI Centers of Georgia, we believe that every step you take should always be pain free. We strive to achieve this goal by providing our patients with a quick and efficient resource to allow for a faster diagnoses and we believe that this is what keeps our clinics at the forefront of patient care and innovation.

The Physical Therapy Centers of Georgia – Working together to help you put your best foot forward. During the winter of 2011, the physicians of the Ankle and Foot Centers of Georgia recognized that they could enhance their patient's experience and improve outcomes by establishing their own Physical Therapy Center.

On April 21, 2011, our Peachtree City Office opened their doors and began treating the patients of the Ankle and Foot Centers of Georgia. By 2013 the PTCG opened a 2nd office in Stockbridge, GA. While each office has its own personality, they all share licensed, healthcare professionals who have chosen to utilize their extensive physical therapy backgrounds to help you "put your best foot forward".

We have 2 locations in the greater Atlanta area. Each location is a physical therapy center that specializes in the treatment of Lower Extremity issues. We treat various conditions such as Plantar Fasciitis, Achilles Tendonitis, balance problems, pain while running or exercising, as well as podiatric post-operative cases.

Complete Physical Therapy Centers of Georgia was founded in 2017 as the need for a Full Body Physical Therapy Centers need was seen in the Peachtree City area.

We have recruited an excellent physician, Dr. Greg Lego. He has 21 years of experience in Orthopedics and Spine rehab, Certified Specialist from the McKenzie Institute International since 2007. He has experience in Amputee rehab and served as team Physical Therapist for 9 amputees who successfully climbed Mt. Kilimanjaro in 2016.

Complete Physical Therapy Centers of Georgia specializes in adolescent, adult orthopedics, and spine care including but not limited to:

- Post surgical rehab
- Acute and chronic low back and neck pain
- Sciatica
- Headache
- Athletic Injuries
- Chronic Injuries
- Arthritis
- Education and training to achieve maximum recovery, and maintain improvement through self treatment
- Amputee Rehab

Established in 2000, for the sole purpose of professionally sterilized pedicures, Ankle & Foot Spa has evolved into a place where people come for a relaxing and exhilarating experience. Now known as one of the safest pedicure services in Metro Atlanta, you can come in and treat your feet to the most inclusive luxurious services available. With a doctor on site to answer any questions or concerns regarding your feet, Ankle & Foot Centers offers you the most complete foot spa experience.

Our Foot Spa Pedicure Includes:

- Sanitized to medical standards
- Disinfected jets and whirlpool foot spa
- Sterilized instruments for each client
- Aromatherapy whirlpool foot bath
- Foot & leg exfoliation treatment
- Nail, corn, and callus care
- Calf and foot massage
- Application of Estelina foot and leg lotions
- Complimentary nail polish application
- Licensed technician with 23 years experience
- Complimentary refreshments
- Approximate time 45-60 minutes
- Medical Grade Sterilization Process
- Manicure Available by Request
- Keryflex Nails Available

In 2004, Dr. Joseph Giovinco created the non-profit The International Institute for Foot and Ankle Surgery. This non-profit foundation was created with Ankle & Foot Centers of Georgia doctors volunteering to travel to South American countries to treat medical & surgical needs of those that would otherwise not received treatment. The mission of the International Institute is not only to provide American standard medical care to those in need but also to teach the existing medical personnel the necessary care that is needed to carry on this work. The International Institute for Foot and Ankle Surgery has continued to grow and has completed it's 13th trip in 2017.

Surgery Centers

Established in 1992 by the physicians of Ankle and Foots Centers of Georgia, the International Center for Foot and Ankle Surgery (ICFAS) has been the first choice of many podiatric surgeons serving the Metro Atlanta area. ICFAS state-of-the-art facility utilizes some of the most modern surgical equipment and supplies available today for lower extremity surgery; our dedication to keeping abreast of constantly changing medical technology ensures that we will always provide you with the excellence in healthcare that you deserve.

In addition to ICFAS we now have four more surgery centers:

- Newnan Center for Foot & Ankle Surgery
- Calhoun Center for Foot & Ankle Surgery
- Windy Hill Center for Foot & Ankle Surgery
- Dekalb Center for Foot & Ankle Surgery

Our Surgery Centers are fully licensed by Medicare and the state-of-the-art of Georgia and fully accredited by the Joint Commission and also the Accreditation Association for Podiatric Surgical Facilities. Our entire medical staff is well trained in outpatient surgical standards and procedures and certified in Advanced Cardiac Life Support.

At Our Surgery Centers, you will be provided excellent and outstanding care; our staff is taught that providing clear and comprehensive information is the best means for ensuring that our patients fully obtain the best medical treatment available. As always our surgery centers look

About Ankle & Foot Centers of Georgia

Dr. Giovinco founded Ankle & Foot Centers of Georgia in 1982. Since then Ankle & Foot Centers of Georgia has grown to over 26 offices and 32 doctors in the 35 years since it's beginning. Doctors and Professional Staff at the Ankle & Foot Centers of Georgia strive to stay abreast of the latest and most state-of-the-art concepts in ankle and foot care. We maintain the highest levels of certification and accreditation and complete numerous hours of ongoing education each year. We believe that a doctor and patient become a team for treating an individual's feet. Our physicians spend most of their time listening to you to understand your concerns. Our group of doctors works on an extended team basis frequently consulting with one another on difficult cases and always involving other physicians in the medical community when necessary. Our doctors are one of the best and most well trained groups in the United States. They are nationally known lecturers and published authors in the field of podiatric medicine.

"Since the inception of the Ankle and Foot Centers of Georgia over 35 years ago, I have always strived to make this practice family oriented. We have always tried to add doctors to our practice that compliment us both on a personal level but also academically. We strive to bring in the best surgically trained podiatrists with impeccable bedside manner."

-Joseph Giovinco, DPM, FACFAS
